

Atrenne Integrated Solutions Announces Appointment of Former Culligan Executive as Chief Financial Officer

MINNEAPOLIS, Oct. 1, 2015 – Atrenne Integrated Solutions, a vertically integrated systems provider serving the aerospace, defense, industrial and telecommunications markets, announced the appointment of Robert J. Gold as Senior Vice President and Chief Financial Officer.

“Bob brings exceptional accounting, operations, and financial experience and knowledge to Atrenne, making him a valuable addition to our senior management team,” commented Jan Mathiesen, Atrenne’s Chief Executive Officer. “I’m excited to welcome Bob to Atrenne and we look forward to leveraging his knowledge to help us improve efficiencies and provide greater value to our defense and industrial customers.”

Mr. Gold brings extensive global finance experience and expertise in business planning, operations, financial management, lean/policy deployment, and mergers/acquisitions. Prior to joining Atrenne, he was the CFO of Culligan International, a global water treatment company where he led substantial improvements in financial/accounting processes, cash and working capital management, and operations. Before that, Mr. Gold was the CFO of United Plastics Group and Jolly Gardener, and held senior financial and general management positions within the Danaher Corporation in the U.S. and Europe, as well as other corporations.
