

## **AbelConn Electronics Receives Supplier of the Year Award from Honeywell Aerospace**

**MINNEAPLOIS – April 11, 2013** AbelConn Electronics LLC, now a division of Atrenne Integrated Solutions, has been awarded one of the prestigious Supplier of the Year awards by Honeywell Aerospace, recognizing the company's outstanding achievement in design, development, and delivery of integrated electronic solutions.

In receiving a Supplier of the Year award, AbelConn met or exceeded stringent metrics with respect to key performance indicators for product quality, reliability, and delivery performance. AbelConn supplies a variety of components and assemblies to Honeywell Aerospace.

"We are honored to receive this award in recognition of the partnership we have developed with Honeywell over the years," said Wallace Olson, president of AbelConn. "This award reflects our strong commitment to deliver defect-free, premium value products on time and with excellent service."

### **About Atrenne Integrated Solutions**

Atrenne Integrated Solutions, Inc. is an advanced, vertically-integrated, component and system provider serving aerospace, defense, computing, communications, and other technology-driven industries. Atrenne delivers integrated components, electronic packaging, fabricated metal, electronic assemblies and value-add build-to-print manufacturing services to industrial markets across the globe. With more than 40 years of experience, Atrenne provides innovatively engineered products and services throughout the program lifecycle, from concept to manufacturing to obsolescence management. Atrenne is proud to provide customers with fully-tested, reliable, electromechanical solutions on-time and with world-class quality. Atrenne is headquartered in the United States.
